## Senior Web Developer Job Description

**Description:** The Senior Web Applications Developer is expected to be able to perform all aspects of the development tasks, including front-end, back-end, and database development. Specific responsibilities of the candidate will include:

- Managing contract design and development resources to timely and successful deliveries.
- Working with clients and review panels to identify recommendations for the appropriate technical, business and human factors solutions.
- Promoting a collaborative work environment with team members and customers, providing task analysis and technical insight to help develop and deliver the needed capabilities via a mobile web-based environment.
- Developing and maintaining web-enabled capabilities and custom applications.
- Leading staff in defining and tracking project requirements, plans, and schedules.
- Leading program reviews as necessary.

**Requirements:** A Bachelor's Degree or equivalent and eight years of general experience or Master's Degree with six years of general experience are required.

- Must have deep expertise in various web and mobile web applications development using AJAX, HTML, DHTML, XHTML, CSS, JavaScript, XML, SQL, PHP, Java, JSP, MySQL, CGI, PERL, UML, Python, Ruby on Rails, .NET, LAMP and SSJS
- Strong problem solving and analytical abilities are required.
- Ability to work efficiently and effectively in a deadline driven environment.
- Ability to work successfully both independently and in a team setting
- Excellent understanding of database modeling
- Excellent Software Development Lifecycle
- Excellent analytical skills
- Creative problem-solving skills and an ability to apply business logic to development requirements
- Strong knowledge of database and information architecture, with web application integration
- Cross-browser/platform experience
- Experience working with, designing and developing Content Management Systems
- Knowledge of internet advertising, e-mail marketing, traffic metrics, or affiliate advertising is a definite plus
- Needs to be detail-oriented, resourceful, and work well under pressure
- Excellent verbal and written English communication skills are essential
